

CONGRATULATIONS

Bill Clarke Plumbing has been selected as the 2018 Consumer Choice Award winner in the category of **Plumbing Contractor - Durham Region** in the Greater Toronto Area.

Since 1987, Consumer Choice Award's (CCA's) mission has been to recognize and promote local businesses to help consumers make better choices.

Today, our brand is recognized as the symbol of business excellence in all major cities across Canada. Coast-to-coast, thousands of companies like yours proudly celebrate being chosen for this honour. Consumer Choice Award is fortunate to align our brand with the best companies in Canada from a variety of different industries and service offerings.

Through independent market research, the consumers and businesses in your community have selected your company as the top-ranked organization in your industry.

It is our mission to ensure we recognize organizations that are truly representative of their cities without the influences of industry insiders, advocate groups, and unethical business practices. No more than one vote per person is tabulated, third parties have no influence in the selection process, and only data pulled from multiple, reliable sources produces the research results.

No other award in North America measures to the same extent the opinions of consumers and businesses of markets it represents.

You are now part of a very select group of companies recognized for their business excellence.

In each market there is only one winner per category. Those winners are selected using four key measures:

1. QUALITY of the products or services provided
2. VALUE of the products or services provided
3. APPEARANCE of the business
4. OVERALL SERVICE provided

This award is exclusively yours.
We are pleased to welcome you to:

“The Winners’ Circle”

Consumer Choice Award is a recognition you can trust.

real votes.
real winners.
